Learning Just Became BIG FUN!

Families, schools, and churches can unfold 15 feet of the most interesting history of the world. This easy to follow, color-coded, multi-stream timeline teaches six thousand years of world history to children ages seven through thirteen. These exciting facts and so much more wait inside:

Who were the first emperors of China and Rome

What discovery unlocked the secrets of a forgotten language

How modern robotics had its roots in the tea dolls of Japan

Where Christians faced death for the entertainment of thousands

*Why the languages of Greek and Hebrew were used
to write the Bible
How the Age of Discovery meant wealth some, and
the destruction of civilization for others*

***Understanding how the past has shaped our future will inspire
young learners to make history for themselves!***

*“The colorful illustrations and photographs help bring
history to life...” – April Estrom (ElCloud Homeschool)*

*“This was definitely one of the best timelines I have seen.
Fantastic for homeschools, churches, and libraries. The
entire timeline runs on a biblical perspective.” – Melanie
Ski (Year of Jubilee Reviews)*

*“This non-evolutionary chart will make history come alive
while keeping God at the center where He belongs!” – Wanda
Meyers (Down LeftyLaine)*

“This is a homeschoolers dream.” – Edie Carter (Carter Chaos)

*This version is casebound with a hard cover appropriate for
viewing as a book that can be turned page by page. This
version will also stretch out the entire 15 feet.*
